PROFILE

Full Stack developer with more than 7 months of hands-on internship experience in building scalable websites and applications using modern technologies. Looking to enhance my skills as a full-stack developer in a challenging environment.

EXPERIENCE

Unified Mentor

Fullstack Web Developer Intern

09/2024 - 10/2024

- Developed 3 full-stack web applications using React, Express and Next.js, resulting in 40% increase in user engagement.
- Worked on 3 industry level projects
- Conducted code reviews and provided constructive feedback, contributing to 20% reduction in bugs and issues.

The Entrepreneurship Network

React Developmentt-Associate (Internship)

09/2021 - 11/2021

- Created 5 web applications and components using React
- Wrote 10,000+ lines of structured, maintainable, and testable code to ensure scalability and readability.
- Improved application performance by optimizing front-end code, leading to 30% faster load time

Trainty

Fullstack Web Developer (Internship)

08/2021 - 10/2021

- Built 4+ full-stack web application using the MERN stack (MongoDB, Express.js, React.js, Node.js)
- Formulated and deployed more than 10 APIs using Express
- Collaborated with team of 3 developers to implement RESTful APIs

PROJECTS

E-Commerce Web Application ([Link](#))

08/24 – 09/24

- Designed a full-stack e-commerce web application using MERN and handling 10+ products
- Implemented 5+ key features including secure payment processing, real-time inventory management, and user authentication and third-party APIs for payment gateways and order tracking

E-Learning Web Application ([Link](#))

12/22 – 02/23

- Developed an interactive e-learning platform using React.js for the front-end and Express.js with MongoDB for the back-end, featuring 2+ courses for enhanced learning experiences.
- Integrated subscription-based access for users to purchase and view tutorials and along with 3+ admin functionalities for course management, user management, and performance analytics.
- Ensured secure authentication and authorization using JWT and bcrypt, capable to handle access management for 1000+ users with 99.9% uptime and zero security breaches.

EDUCATION

Nagpur Institute of Technology, Nagpur

Nagpur, India

Bachelor of Engineering in Information Technology

2018 – 2022
